Pressurized cylinders

Tires

Appliances (larger than microwave)

Waste in 6 gallon or larger container

Commercial chemicals (for business use)

Asbestos

Trash

Construction materials

Not more than five gallons of driveway sealer

Liquid mercury

NOTE:

Every public sponsored program is different. While this list is extensive, Curbside's call center personnel can explain which wastes are accepted in your community.

Some programs accept only used oil and used oil filters, others include additional items. A program instruction sheet will be sent to every person scheduled for a collection and it will contain more specifics about your program.
